

An Aerospace & Defense Company Achieves Faster Troubleshooting with LiveAction

Introduction

This case study of a large enterprise aerospace & defense company is based on a January 2022 survey of LiveAction customers by TechValidate, a 3rd-party research service. The profiled company asked to have their name blinded to protect their confidentiality.

Challenges

The business challenges that led the profiled company to select LiveAction was the need for greater visibility in:

- Data Center
- Branch
- Campus

Use Case

The most valuable network monitoring capabilities realized were: searching, filtering, and granular analysis of network telemetry for faster diagnosis and troubleshooting.

Company Profile

The company featured in this case study asked to have its name publicly blinded because publicly endorsing vendors is against their policies.

TechValidate stands behind the authenticity of this data.

Company Size:

Large Enterprise

Industry:

Aerospace & Defense

Results

The aerospace and defense company achieved faster problem diagnosis and root-cause analysis with LiveAction network performance monitoring solutions.
