

OmniPeek Windows Training

Number of Days: 1 Day

Instruction Method: Instructor-Led-Training

Course Description

This course is designed to get Network and Application Support personnel up-and-running quickly with LiveAction's **OmniPeek for Windows** solution. Topics include: Capturing Data, Interpreting results, Node-to-Node Communications, Detailed Analysis, Graphing and Reporting, with a view to troubleshooting network issues at packet level.

In this hands-on technical session, expert instruction is combined with lab exercises to maximize the learning experience.

Who should take this course?

This session is targeted towards those who wish to use LiveAction **OmniPeek for Windows** to investigate network and application performance and research packet-level alerts and issues via rich visual reports.

OmniPeek for Windows provides Network Engineers and Application Developers a powerful portable solution that comprises capture, analysis, and root-cause understanding of network issues.

Prerequisites

- Basic understanding of applications, networking, and protocols.
- Participants are required to provide their own PCs/laptops AND ensure their ability to connect to the internet.

Fundamentals Topics:
