A Large Enterprise Insurance Company Selects LiveAction for Better Flow Analysis

Introduction

This case study of a large enterprise insurance company is based on a November 2021 survey of LiveAction customers by TechValidate, a 3rd-party research service. The profiled company asked to have their name blinded to protect their confidentiality.

Challenges

A Large Insurance Company Faced the following challenges:

→ End-to-end network and application performance visibility

→ Detailed, root-cause analysis with drill-down from flow to packet analysis

→ SD-WAN lifecycle monitoring

→ Voice and video monitoring

→ Real-time network topology mapping

→ Capacity planning

Company Profile

The company featured in this case study asked to have its name publicly blinded because publicly endorsing vendors is against their policies.

TechValidate stands behind the authenticity of this data.

Company Size:
Large Enterprise

Industry:
Insurance
